

# Medical Ministry

Since 2002 Bethesda Health Association has sought to carry out the healing ministry of Jesus with the same fundamental purposes that our Lord himself exemplified: Christian healing proclaims the presence and power of His Kingdom, and it makes the Church a visible manifestation of His compassion and love for those who suffer.

## How You Can Help

Help us promote Bethesda's growth and development through regular prayer, giving to the Bethesda Development Fund, and by coming to serve with us in Peru using your gifts and training either on a short or long-term basis.
